Revision of the scale of establishment of the Architectural Section.

5. According to G.O. No. 7C.3471-3531/SLA.132-44-1 dated 1-2-1945, proposals of this nature have to lie over unless special reasons for consideration of the same are adduced. The Chief Engineer has forwarded a note drawn up by the Architect explaining the necessity for the revision of the establishment. The proposal requires financial concurrence and sanction of Govt. This is also a Council matter. Flag N

6. It is seen from the Prop's statement that

(1) the Scale of the Assist architect has been revised to that of an Assist Engr + C.A. 32

(2) 2 Surveyors on 60-5-125-10-175 + DA 15 have been proposed against 1 present on Rs. 60-5-125 + DA 15

(3) 1 Head draughtsman on 80-5-125 has been proposed. This is an addl hand

(4) 1 Head Clerk on 70-5-95
1 typist on 30-4-70
1 Record clerk on 30-4-70
1 T.O. & Frm Clerk on 30-4-70
1 Duftry on 15-1-18
1 Peons on 11-½-15

7. These are additional hands

Item (1) above may, perhaps, be approved

Items (2) - 1 Surveyor & 1 H. draughtsman
(3) - may be approved against 1 present existing at present

(4) - 1 Clerk-cum-typist and 1 duftry and 1 addl peon may be sanctioned for the present for the office work, as there

15- The necessity to increase the Office Staff

Note.—Contn. sheet.

WT 01094—GPB—20,000—22-2-41

Revision of the scale of estt - Architectural Section. PW 3742

of the Government Architect was explained to the Dewan. The designing and drawing work in the Government Architect's Office has more than doubled during the last few years and also the correspondence. The provision of an Assistant Engineer's grade for the Assistant Government Architect has been made with a view to associate a suitable young Assistant Engineer with the Architect's work and later on after a few years this Assistant Engineer could be deputed to undergo foreign training to qualify him to fill the place of the Government Architect in due course when it should fall vacant.

16 The provision made in this proposal as regards the current section has been reduced and the modified proposal has been restricted to the minimum additional hands now required. The extra cost involved is Rs.6,158/- per annum.

No. 1141

18 I have consulted both the Chief Engineer for Irrigation and the Chief Engineer for Roads and Buildings. There seems to be a real need for a separate staff for the Govt. Architect. His work has recently increased enormously and the proposed staff is absolutely necessary for him to cope up with the work.

As regards the ministerial and menial establishments, I think one clerk and one peon may be cut down.

Ks. 24/7/45.

19.

Dewan) Ks/25/7/45
Fin Secy

20. As per the orders above, the clerical staff will be 1 typist and 1 clerk and on the menial staff 1 attender, 1 daffedar and 3 peons. In the executive staff as per proposals now submitted there will be 2 Surveyors in grade 60-5-125-10-175 against 1 Overseer on Rs.80-5-125. In addition one Head Draftsman is asked for. As two Surveyors are being given instead of 1 Overseer, I think the post of Head Draftsman asked for may also be cut down.

Dear

Yours

Circulation Note.

Subject: Revision of the scale of establishment of the Architectural Section of the Chief Engineer's Office.

The existing scale of establishment attached to the Architectural section is noted in the margin.

Permanent:
1 Architect on Rs.800-50-1000+48 C.A.
1 Asst.Architect on Rs.250-20-350
1 Overseer on Rs.80-5-125+15 C.A.
2 Architectural Draftsmen on Rs.55-5-80
2 Asst. Draftsmen on Rs.40-5/2-55
1 Attender on Rs.15/-
1 Peon on Rs.11-½-15
Temporary:
1 Draftsman on Rs.55-5-80

The scale was fixed some years ago. The designing and drawing work in the Architect's Office has more than doubled in the last few years as also the correspondence.

The correspondence includes giving of technical advice for building schemes of all Government departments, Municipalities and Covernment aided Industrial concerns as well as scrutiny of plans and estimates pertaining thereto. It was originally intended that the clerical work of the Architect's Office should be attended to by the staff attached to the Chief Engineer's Office; but as the work in the latter office has also increased enormously of late, this arrangement has become unworkable. The Chief Engineers, therefore, consider that the Architect's Office needs strengthening and revision as per details shown in the proposition statement.

The question has been further examined and it is proposed to allow the following establishment:-

1 Architect on Rs.800-50-1000 + 48 C.A.
1 Asst.Architect on Rs.200-40/2-400 + 32 C.A.
2 Surveyors on Rs.60-5-125-10-175 + 15 C.A.
2 Draftsmen on Rs.55-5-80
2 Assistant Draftsmen on Rs.40-5/2-55

1 Typist on Rs.30-4-70
1 Clerk on Rs.30-4-70
1 Attender on Rs.15-1-25
1 Daffedar on Rs.15-1-18
3 Peons on Rs.11-½-15

(3285) The proposal results in an extra cost of Rs.3,192 per annum and has been approved by the Dewan and the Minister for Public Works. The concurrence of the other Ministers is solicited before obtaining the gracious sanction of His Highness thereto.

Date 8.3.1945

To

The Secretary to Government,
Public Works Department,
Bangalore.

Sir,

ESTABLISHMENT OF THE ARCHITECT'S OFFICE.

I have the honour to state that at present, the establishment of the Government Architect's Office consists of (a) Government Architect with the status of an Executive Engineer in the grade Rs 450-50/2-800, (b) Assistant Architect (on leave for the duration of the War) in the temporary and personal grade of Rs 250-20-350, (c) Overseer in grade Rs 80-5-125 plus Rs 15/- C.A. (d) two Architectural Draftsmen in grade Rs 55-5-80, (e) two Assistant Draftsmen in grade Rs 40-5/2-55, (f) one Attender and (g) one Peon in grade Rs 11-1/2-15.

2. In order to permit the Government Architect to concentrate his attention on various important major works like the drafting of the Town Planning Act, the framing of Municipal Licensing Bye-laws, the preparation of Modern Type designs and type specifications; proposals for the organisation of training in Architecture and Town Planning in the College of Engineering, work connected with the Town Planning - - Committee and Village reconstruction and improvement works, the Chief Engineer for Roads & Buildings has requested to take action to obtain sanction of Government to the establishment proposed in the Proposition Statement.

3. In the circumstances, I concur with the views expressed by the Chief Engineer for Roads & Buildings, and request you to kindly obtain and communicate the sanction of Government, to the establishment proposed in the Proposition Statement, (enclosed).

4. The extra cost on account of the proposed establishment will be Rs 6,480/- per annum.

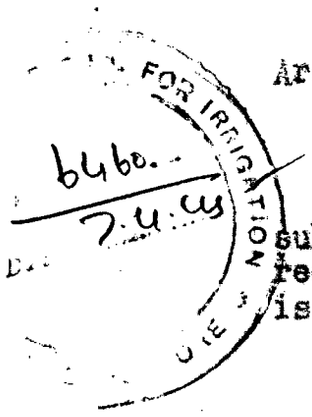
Establishment

M. Narasimha

CHIEF ENGINEER FOR IRRIGATION.

U.O.Memorandum.



Re: establishment of the Office of the Government Architect - P.W.Dairy No.3742 dated 10th March 1945.

I propose that the following reasons may be submitted to Government to explain why the proposed reorganisation and strengthening of the establishment is most urgent and essential.

The proposal contains three groups:

A. Provision of new clerical establishment.

B. Reorganisation and slight increase of technical establishment.

C. Provision of additional menial establishment.

A. Clerical Establishment:

While the output in drawings and prints from this office has doubled since the year 1342, the volume of correspondence has increased 4 times since the year 1939 when the present Government Architect took charge.

This correspondence includes technical advise for building schemes of all Government Departments, Municipalities and Government aided Industrial concerns as well as scrutiny of plans and estimates from Division Offices, town planning matters, questions of conversion, and of building legislation.

It was originally intended that the clerical work of the Architect's Office should be handled by the staff of the Chief Engineer. Apart from the difficulties arising by the double control over subordinates caused by this arrangement the volume of work has become far too large to be dealt with as an additional duty by the Office of any of two Chief Engineers both of which are fully occupied with their own heavy work.

As a result technical staff of the Architect's Office had to be deviated for clerical work, a procedure which could not prevent delay in both drawing work and correspondence.

In addition the maintenance of the library of more than 8000 valuable drawings in this office which must be ready for immediate reference at any moment and the maintenance of office records ~~as~~ requires special clerical establishment.

The sanction of clerical establishment as per enclosed proposition statement is therefore an urgent necessity for the efficient progress of all building works in the State and for the maintenance of valuable Government property.

B. Technical Establishment:

The efficiency of an office depends to a great extent on the prospects of the staff to advance through hard work and through long and faithful service. This condition is lacking in the Architect's Office as now established. As a result the staff of this office is always longing to get out into other lines of service where the prospects are better. It is the object of the present reorganisation proposal to provide such possibilities particularly in the Draftsmen cadre, by converting one of the two present Draftsmens' posts into that of a Head Draftsman and to make the present temporary draftsmans post into a permanent post.

The work of the Government Architect is handicaped by the fact that there is no Gazetted Officer to take his place and to see to the continuity of work while he is on tour. It is therefore proposed to modify the present Assistant Architect's grade of Rs.200-50-300 in such a way as to correspond to an Assistant Engineer's grade in the P.W. Department and to fill it with the best available candidate who may be trained to succeed ultimately the present Government Architect in his office.

The only addition to this office suggested together with the above reorganisation proposal is the creation of one Surveyor's post. This is necessary for two reasons:

i) To permit young graduates of the Department to undergo periods of training in this office, before serving in executive divisions.

ii) To provide for the requirements of modern technical design which in many cases has become too complicated to be handled entirely by draftsmen without qualifications in higher mathematics and applied mechanics and to deal with the technical side of the work of this office viz., checking of specifications and type estimates.

For the above reasons the proposed reorganisation and strengthening of the technical establishment is urgently necessary to relieve a situation in which many budget grants for building works cannot be worked out due to the fact that this office is too small to provide all necessary plans in time.

C. Menial Establishment:

Due to the increased volume of work and shortage of office space the Government Architect is forced to attend office in the morning as well as during office hours. In addition, building works all over the State must be supervised and inspected. The one peon at present attached to this office cannot be on duty from early

early morning till 7 P.M. or later and accompanying the Government Architect on his tours. It is urgently necessary to provide at least the same menial establishment of one Daffedar and four peons as in the case of other Executive Engineers.

Before building projects of any Government Department, Local Body or Industrial concern can be placed before Government for consideration the collaboration of the Architect's office is required. Defects in the functioning of this office will therefore affect all other offices and departments. Under these circumstances I request that the proposed reorganisation and strengthening may kindly be recommended for Government for approval in toto.

Circulation Note. HH No 284 C !

Revision of the scale of establishment of the Architectural Section of the Chief Engineer's office

The existing scale of establishment attached to the Architectural Section is noted in the margin. The scale was fixed ~~Some~~ years ago. The designing and drawing work in the Architects' office has more than doubled in the last few years as also the Correspondence.

The Correspondence includes giving of technical advice for building schemes of all Govt departments, Municipalities and Govt aided Industrial Concerns as well as scrutiny of plans and estimates pertaining thereto. It was originally intended that the clerical work of the Architects office should be attended to by the staff attached to the Chief Engineer's office; but as the work in the latter office has also increased enormously of late, this arrangement has become unworkable. The Chief Engineers therefore consider that the Architects office needs strengthening and revision as per details shown in the proposition statement.

The question has been further examined and it is proposed to allow the following establishment.

1 Architect	on Rs 800-50-1000 + 48 CA
1 Assistant Architect	on Rs 200-40/2-400 + 32 CA
2 Surveyors	on Rs 60-5-125-10-175 + 15 CA
2 Draftsmen	on Rs 55-5-80
2 Assistant Draftsmen	on Rs 40-5/2-55
1 Typist	on Rs 30-4-70
1 Clerk	on Rs 30-4-70
1 Attender	on Rs 15-1-~~25~~ 18
1 Daffedar	on Rs 15-1-18
3 Peons	on Rs 11-1/2-15.

4 Staff 1/9

Permanent

1. Architect	on Rs 800-50-1000 + 48 CA.
1 Assistant Architect	on Rs 250-20-350
1 Overseer . .	on Rs 80-5-125+15 CA.
2 Architectural Draftsmen	on Rs 55-5-80
2 Assistant Draftsmen	on Rs 40-5/2-55

Subject: Revision of the scale of establishment of the Government Architect's Office.

The existing establishment of the Office of the Government Architect is reported to be absolutely inadequate by the Chief Engineers for Irrigation, and Roads and Buildings. The work of the Government Architect has increased considerably as he has to give advice on the building schemes of all Government departments, local bodies and industrial concerns and that it is necessary to strengthen the establishment of his office to cope up with the increased work.

The existing scale of establishment and that proposed to be given with the variation and scales of pay are shown in the proposition statement. The proposal results in an extra cost of Rs.3,285 per annum and the same has been agreed to by the Dewan and other Ministers. I solicit the gracious sanction of His Highness thereto.

Minister for Public Works.

TSRN,

(Draft)

Subject: Revision of the scale of establishment of the Architectural Section of the Chief Engineer's Office.

The existing establishment of the Office of the Government Architect is, as noted in the margin*.

1	Attender	15-1-25
1	Daffedar	15-1-18
3	Peons	11-½-15

P.T.O.

The revision involves an additional expenditure of Rs.3,285/- per annum. The Dewan and the other Ministers are agreeable to the above proposal and I solicit the gracious sanction of His Highness thereto.

MINISTER FOR PUBLIC WORKS.

Final Note by the Minister for Public Works.

Subject.— Revision of the scale of establishment of the Government Architect's Office.

The existing establishment of the Office of the Government Architect is reported by the Chief Engineers for Irrigation, and Roads and Buildings, to be absolutely inadequate. The work of the Government Architect has increased considerably as he has to give advice on the building schemes of all Government Departments, local bodies and industrial concerns, and it is therefore necessary to strengthen the establishment of his office to cope up with the increased work.

It is accordingly proposed to revise the establishment of the Office of the Government Architect. A proposition statement showing the existing scale of establishment and that proposed to be given is appended to this. The proposal results in an extra cost of Rs. 3,285/- per annum, and the same has been agreed to by the Dewan and the other Ministers. I solicit the gracious sanction of His Highness thereto.
